Recitation 2

Install Fest

Your peer leader will be making sure you are able to compile and run Java code in recitation. Please have the jdk downloaded before recitation begins.

Exercise 1: Basic Syntax/Typing – find the bug!

Declaration/Assignment	Boolean expressions

int x = 5
double = a;
char 'f' = g;
boolean b = "true";
	if (boolean == true) …
	if (var = true) …
	if (boolean == "false") …
	if (var == 5 & x = 3) …

Typing (Are these declarations correct or incorrect?)
 	
int x = 2.0;
boolean y = false;
char a = b;
double e = 100
	Syntax
	
	Public Class helloworld {
	  Public static Void main (string [] args) {
	    string s == 'goodbye!'; System out.Println(hello world! + s)
	  }
	}
